

Visiting Fellows

CSEAS is accepting applicants semiannually for about 14 positions for scholars and researchers who work on Southeast Asia, or any one of the countries in that region, to spend 3 to 12 months in Kyoto to conduct research, write, or pursue other scholarly activities in connection with their field of study. Since 1975, more than 300 distinguished scholars have availed themselves of the Center's considerable scholarly resources and enjoyed the invigorating atmosphere of scenic Kyoto, the ancient capital of Japan and the main repository of the country's cultural treasures, to pursue their interests in Southeast Asian Area Studies. The Center's multi-disciplinary character and the diverse research interests of its faculty offer visiting scholars an ideal opportunity for the exchange of ideas and the cultivation of comparative perspectives. The highly competitive selection process has brought to the Center in recent years researchers from Southeast Asian countries, Bangladesh, China, Korea, and western countries including the United States and France. The visiting fellows represent various basic disciplines in their study of Southeast Asia, and their official posts

in their home institutions include teacher, researcher, librarian, journalist, and NGO worker. Information and Technology (IT) experts who conduct research on Southeast Asia are also joining the Center, not only to manage various database systems but also to construct academic networks for area study throughout the world. Successful applicants receive an appropriate stipend to cover international travel, housing, and living expenses in Kyoto. Research funds will also be provided to facilitate his/her work. Funds will also be allocated for domestic travel, subject to government regulations, and a number of other facilities are available to visiting scholars. Fellows will be expected to reside in Kyoto for the duration of their fellowship period. Fellows are normally invited to deliver a public lecture during their term at the Center and encouraged to submit an article for possible publication in the Center's journal, *Southeast Asian Studies* and to contribute to the online journal *Kyoto Review of Southeast Asia*. CSEAS also received researchers, both Japanese and foreign, who visit on their own funds or on external fellowships.

Name	Period	Affiliation/Position	Research Title
